Quotation Creatr 3D Printer

Creatr – Personal 3D Printing made easy and affordable

The Creatr is designed to look awesome and be the most competitive and durable 3D printer on the market. The machine features a high quality of printed product, has a large print area and has a high positioning accuracy of the print head. Most important of all: finally a reliable and mass-produced 3D printer which is very affordable.

The Creatr is built out of laser-cut high strength aluminum parts, ensuring a light weight but very stiff construction. This allows for the high positioning accuracy and high production speed.

Installation

There is no need for assembly, the machine is virtually plug and play. Just install the software and connect your computer to start creating your imagination. Go to lpfrg.com/support/installation for an online guide to installing the machine.
